

MCQUENDIE OBODOS

Frontend Developer | UI/UX Designer | Copywriter

Lagos, Nigeria | 0903 402 8867 | obodosmcquendie@gmail.com | linkedin.com/in/mcquendie-obodos | github.com/mcObd

PROFESSIONAL SUMMARY

Frontend developer and UI/UX designer building responsive, production-ready interfaces with React, JavaScript, and Tailwind CSS. Currently pursuing an Advanced Diploma in Software Engineering while freelancing for clients end-to-end, from design through deployment. Seeking a Junior Frontend Developer or Frontend Engineer Intern role, with openness to freelance-to-full-time opportunities.

TECHNICAL SKILLS

Languages: JavaScript, HTML5, CSS3

Frameworks & Libraries: React, Tailwind CSS, GSAP

Tools & Platforms: Supabase, Git, Vercel, Figma

AI-Assisted Development: Cursor, Codex

Currently Learning: C#, Java

EXPERIENCE

Freelance Frontend Developer & Web Designer

Self-employed | Lagos, Nigeria | 2025 – Present

- Designed and built a fully responsive marketing website for OrbitAfrica, a real estate company, using React, JavaScript, and Tailwind CSS, managing the project from client brief through deployment.
- Ran the complete freelance workflow independently, including client outreach, requirements gathering, UI/UX design, frontend development, and deployment.
- Built layouts optimized for consistent performance and readability across mobile and desktop breakpoints.

PROJECTS

DigiLab (HTML, CSS, JavaScript)

- Built a fast, conversion-focused business landing page with a mobile-first layout and clear content hierarchy.

Greeny (React, JavaScript, CSS3)

- Designed a sustainable e-commerce concept with a product-first, accessible layout and responsive grid system.

Poly Site (HTML5, CSS3, JavaScript)

- Built a creative agency template with bold, scroll-driven sections and device-friendly presentation.

LearnStack (React, Vite, Tailwind CSS, Supabase)

- Building a full-featured e-learning platform, including routing, database integration, and deployment.

EDUCATION

Advanced Diploma in Software Engineering (ADSE)

Aptech Computer Education | Lagos, Nigeria | Expected April 2028
